Section 1: Applicant's details

<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Name of Applicant: Note. 1.1</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>	<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Contact name:</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>
<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Address of Applicant: Note. 1.2</div> <div style="border: 1px solid #ccc; height: 60px; margin-bottom: 5px;"></div> <div style="margin-bottom: 5px;">Postcode:</div>	<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Telephone number:</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>
<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Registered company number: Note. 1.3</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>	<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Mobile number:</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>
	<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Email address:</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>

Section 2: Connection details

<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Drainage plan reference</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>	<div style="background-color: #0070C0; color: white; padding: 5px; margin-bottom: 5px;">Adoption agreement reference number</div> <input style="width: 95%; height: 25px; border: 1px solid #ccc;" type="text"/>
---	---

The contractor who will be making the connection

Connection Point Reference (e.g. MH9501 or S2 on drawing C3, etc)	Type of Connection (new/ existing manhole)	Foul/ Surface/ Combined	RAMS Attached (Note. 2.1)	Other Documents Attached

Connection Point Reference (e.g. MH9501 or S2 on drawing C3, etc)	Type of Connection (new/ existing manhole)	Foul/ Surface/ Combined	RAMS Attached (Note. 2.1)	Other Documents Attached

Please note that if this form is not received before the Section 104 adoption agreement is complete you will need to follow the normal sewer connection process and submit a complete application form and payment, per connection to the sewer.

Declaration (To be signed by Applicant)

By signing this form I confirm:

- I agree to the terms as set out under the option I have opted for above
- The Applicant is the owner/occupier of the premises to which this application relates
- All statutory requirements, including without limitation the Water Industry Act 1991 and the CDM Regulations 2007 (as amended) shall be met
- I have read the Developer Charges Summary and understand the charges that are applicable to the connection.
- I have read the Severn Trent Connect guidance notes for providing a new connection to a public sewer
- (If signing on behalf of a Company) I am a duly authorised representative of the Company and can bind the Company accordingly.

Support notes

IMPORTANT NOTE: Insufficient or inaccurate information may result in delays in the processing of your application.

Note 1: Applicants details

- 1.1 The Applicant is the owner/occupier of the site that requires the connection. It is this individual/company that is responsible for the content of the application form and accepting the conditions laid out in the application declaration.
- 1.2 Please ensure that the complete address and contact details are provided. These address details may be used for future contact and correspondence.
- 1.3 Registered Company Number: The registration number of the business as issued by Companies House www.companieshouse.gov.uk.

Note 2: Risks involved and the method statement

- 2.1 Sewers including manholes and trenches need special safety precautions. You must be able to demonstrate your awareness of the Confined Space Regulations 1997.

The Method Statement must be site/connection specific and show the step by step process of connection from start to completion, reconfirming the Method of Connection.

Agreement to the works by STC should not be taken as confirmation that your proposed method of working complies with these documents or represents a safe system of work. No person should enter a manhole on the public sewerage system without having had the appropriate confined space training. They must have all the necessary safety equipment and ensure that they comply with all the relevant health and safety requirements.

- Working in deep excavations (please provide evidence of authorisation)
- Working in the public highway New Roads and Streetworks Act (NRSWA)
- Working in confined spaces (please provide evidence of authorisation)
- Contents of the sewage, such as aggressive trade effluent, petrol, chemicals etc.
- Accidental spillage may enter the public sewer and cause a harmful atmosphere
- In times of storm the water level may rise rapidly
- Sewage can contain rat's urine. Infection from such contaminated sewage can cause Leptospirosis (Weil's Disease) and therefore appropriate hygiene measures should be taken.

The Risk Assessment must identify the risks involved with the connection and must display measures that will be put in place to avoid those risks such as:

- Contact with sewage & personal hygiene facilities
- Danger from live sewer flows
- Traffic Management
- Contact with existing services
- Confined Spaces training
- PPE
- Barriers & signing
- Trench Support
- Manual Handling & machinery
- Any other site specific risks
